The collection is the first regional issue. The second is devoted to North America, third to South Asia and the fourth to Europe. A fifth devoted to Australasia and the Pacific will be launched in 2009.

From 2009 the *International Journal of the History of Sport* will increase in frequency to 16 issues per year. There will be five regional issues, four regular issues, two themed collections, and two review monographs. In addition, there will be an Annual Review which allows scholars the opportunity to develop ideas and arguments more fully than previously within a framework of some 15,000 words. There will also be a regional themed collection and review monograph. In 2009 this will be devoted to Europe. In subsequent years the other regional issues will have their themed collections and review monographs.
